

BEST WORKPLACE FOR WOMEN 2024 AWARD

On the Occasion of International Women's Day on 8 March 2024
the Association for Women's Career Development in Hungary
is announcing the "The Best Workplace for Women 2023" Competition and Prize.

Background

The Association for Women's Career Development in Hungary (AWCDH), in UN-ECOSOC - Consultative NGO Status since 2009, has established a **Platform of knowledge transfer** with the participation of organizations interested in working **for the enhancement of women's employment and the realization of women's equality** (EU, government, academia, corporate and non-profit spheres, media) by the **direct involvement of Hungarian employers**. This Platform serves as basis for the enhancement of women's employment and a more characteristic representation of women's equality, thus contributing to the enlargement of the labor market and the strengthening of economic competitiveness of Hungary. The AWCDH is presenting its projects at EU and UN level as well, as Hungarian "best practices". Since 2020 the pandemic forced many employers to fundamentally rethink their working practices and attitudes.

Aim of the Best Workplace for Women Award

The Prize has been established to point beyond the need for equal employment opportunities to the economic advisability and advantages of making more and more women part of the work force. The AWCDH issues a call for participation in the survey of the "The Best Workplace for Women 2023" Award on 8th March 2024 for the 17th time as a continuation of the successful initiative launched in 2007 in honor of the "Equal Opportunities for All – European Year".

Database regarding women's employment

Since 2007 we have carried out surveys in connection with our "Best Workplace for Women" Award among employers and employees. Our special database regarding women's employment and women's well-being is available as a representative sample based on the opinion of more than 24 thousand questionnaires.

We have developed our "Best Workplace for Women Award" with particular emphasis on

- Introduction of Hungarian "best practices" on Hungarian and international platforms
- Representation of the interest of special women's groups as employees such as:
integration of fresh graduates into the labor market,
inclusion and/or continued employment of women returning from maternity leave,
support of the careers of women over 55,
improving employment chances of women with disabilities,
improving employment chances of rural women,
women's employment in the STEM and ICT sector.
- The impact of the pandemic on employment and working methods.
